Exclusions and remaining work

SYN no intervention or energised work

SYN remaining inspection needs service-owner review

- Unresolved finding requires follow-up.
- An authorised task remains incomplete.
- A task result has not passed the synthetic completion check.
- The synthetic site-controls completion check has not passed.

Next-action owner: Service coordinator. A proposed return requires separate confirmation and work authority.

Customer response context

A response describes only the exact content presented. It does not approve billing, the entire project, statutory compliance or warranty settlement. Stated identity and an optional synthetic mark are not independently verified identity. Responses are recorded separately; this PDF is never changed to add a signature.
